

Clip C Series CH50

The Clip C Series is designed as an attachment for any type of the standard day scope. **NO REZEROING** is needed just **CLAMP&SHOOT**. It is a dual-use camera since it can be switched into a professional monocular with the standard delivered eyepiece in few seconds. Now expanding your detection ability together with your day-scope.

Product Characteristics

- No Rezeroing required and quick attached
- Compact size and lightweight
- Familiar precision
- Quicktransformation
- High resolution OLED display
- 12 μm thermal imaging sensor

Model

CH50

Microbolometer

Detector Resolution	640×512
Pixel Size, μm	12
NETD, mk	≤ 40
Frame Rate, Hz	50

Optical Characteristics

Objective Lens, mm	50
Filed of View	8.8°×7.0°
Magnification	×1
Detection Range, m (Target size: 1.7 m×0.5 m, P(n) = 99%)	2597

Display

Type	OLED
Resolution	1024×768

Operational Characteristics

Battery	CR123× 2
Max. Battery Life (t=24°C), h	4
Degree of Protection, IP Code	IP66
Weight (without battery), g	≤ 510
Dimension, mm	167×74×68
Interface	Type-C
Adapter Ring Mount	M52×0.75
